

Evangel Hospital Pilots "Smart TeleHealth and Virtual Care" with Funding Support from the Technology Voucher Programme under the Innovation and Technology Fund

Evangel Hospital made the following announcement today (6 October 2023) :

To echo the recommendations listed under the Primary Healthcare Blueprint published by the Health Bureau, Evangel Hospital has initiated a pilot programme on **Smart TeleHealth and Virtual Care Services**. The primary objective of this initiative is to effectively screen and monitor patients suffering from chronic diseases within the community.

This programme has successfully secured funding through the Technology Voucher Programme under the Innovation and Technology Fund. This financial support enables us to offer remote monitoring of vital signs and health parameters for our clients, thereby enhancing the quality of care and access to healthcare services in our community.

Evangel Hospital would like to express gratitude for the support from the Innovation and Technology Fund.
